SKILLS

Languages: Javascript , C++, HTML5, CSS3, SCSS
Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS
Database: MongoDB

SUMMARY

MERN Stack Developer with strong problem-solving skills and a proven ability to build efficient full-stack web applications. Skilled in developing scalable front-end interfaces with React.js and Tailwind CSS, and robust back-end systems using Node.js, Express.js, and MongoDB. Adept at writing clean, maintainable code and optimizing performance. Solved 300+ coding problems on GeeksforGeeks and LeetCode, demonstrating solid algorithmic and data structure knowledge.

PROJECTS

Hotel Booking Management System :

User Website:

Developed a **MERN-based hotel booking portal** with **JWT-secured authentication, Stripe payment integration,** and **advanced room search with date, guest, and availability filters.** Implemented booking history, review system with ratings, and **React Query** for optimized remote state management, styled with **Tailwind CSS**.

Admin Panel:

Built a **role-based admin dashboard** for admins and employees with **CRUD operations** on rooms, bookings, and employees. Integrated **check-in/out management, online/offline payments**, and **analytics visualizations (pie & area charts)** for sales and stay duration. Used **React Query**, **styled-components**, and **rate-limited REST APIs** for secure and scalable performance.

AI Powered Job Portal :

- Engineered a **MERN-based AI job portal** with a **modern, responsive UI** featuring advanced job listings, filters, pagination, and bookmarking.

- Integrated **Gemini API** for **AI-driven resume parsing**, personalized job recommendations, and AI-generated job descriptions/profile "About Me" content.

- Built **role-based dashboards** for job seekers and recruiters with **CRUD operations**, **notifications**, **analytics charts,** and **real-time chat via WebSockets**.

- Implemented **JWT-secured authentication**, optimized state with **React Query**, and styled with **Tailwind CSS** for a seamless user experience.

CERTIFICATES

- **The Unlimited React Course**

- **The Complete Javascript Course**

- **Node.js, Express, MongoDB & More: The Complete Bootcamp**
